GROWING SOLUTIONS FOR HYDROPONICS

**DESCH**  
PLANTPAK

# HYDROPONIC POTS

- Optimal size for hydroponic growing of lettuce and herbs
- Strong product makes it suitable for all destacking machines
- Good quality pot available in D-grade & PS
- Size of the holes in the bottom and the side are optimal for a good oxygen support, allowing a good growing process of the plants
- Almost no peat in the filters of the hydroponic systems.
- If using our injection molded growing tray, 225 plants/pots per square meter
- Bio pot has several certificates: OK-compost and OK biobased
