260KPG	KPG Container		26,0 cm	20,5 cm	7,5	8	-	2.560	1.920 (6 x 320)

### IMCA

- Higher rim + high pot = higher decorative value
- Scratch resistant
- Smooth surface, so that dirt will not easily stick on the pot
- Distinctive modern design
- IMCA cover pot with water reservoir
- IMCA can be used with standard 5 litre thermo and 7.5 litre injection moulded container
- Fits well on a Danish Trolley
- Volume of 27 cm almost equal to 29 cm tree container, which creates more loading space
- Unbeatable price/quality ratio
